PROJECTS

Student Portal – *Python, Django, CSS/HTML, Bootstraps*

Fall 2021

Developing a student portal website using Python, Django, Bootstraps and Web APIs such as YouTube videos API and Google books API. Students can register, login and logout to their own accounts, and they can create to do lists, homework lists, search books, search YouTube videos, and use dictionary on the website. Working on more features like class enrollment system to the web.
